Objective

To secure a role in Full stack development , offering expertise in MERN stack and responsive design, with a focus on creating user-friendly and efficient web applications.

Education

G.L. Bajaj Institute Of Technology and Management

Oct 2021 – May 2025

Bachelor of Technology in Computer Science

8.36 CGPA

Experience

Blue Digital Pvt. Ltd.

June 2024 – July 2024

FrontEnd Developer Intern

Noida, U.P.

- Developed and implemented a responsive website using React and Bootstrap, enhancing user engagement by 30%
- Partnered with a team of developers to design and implement user-friendly interfaces, ensuring seamless user experience
- Optimized front-end performance by refactoring code and adhering to best practices
- Created custom reusable components in React, streamlining the development process for future projects.

Projects

Hospital Management | *React js, Tailwind, Redux Toolkit, Node Js, Express Js, Mongo Db,*

June 2024

- Created a hospital website providing an intuitive online platform for patients and healthcare professionals.
- Utilized React.js and Redux for the frontend, enhancing user experience with dynamic and responsive design.
- Implemented Node.js and Express.js for the backend, ensuring efficient server-side operations and handling of requests.
- Ensured robust security with user authentication using **JWT** tokens and password hashing with **bcrypt**, improving system security by 25%

Chat Buddy | *React Js, Tailwind, Zustand, Node Js, Express Js, Mongo Db, Socket io*

May 2024

- Developed a chat application using React.js and Zustand , enhancing user interactions with better state management and real-time updates, resulting in a dynamic user experience.
- Engineered efficient server operations and real-time data handling with Node.js, Express.js, and Socket.io
- Integrated MongoDB to optimize data storage and user authentication with JWT tokens and bcrypt hashing
- Implemented essential features such as login, signup, logout, and real-time chat, resulting in a 40% increase in user engagement.

Weather WebApp | *React js, Tailwind, API(Open Weather)*

December 2023

- Developed a weather application using React.js and Tailwind CSS, providing real-time weather updates for users.
- Designed a user-friendly interface with Tailwind CSS, enhancing the visual appeal and user experience.
- Integrated OpenWeather API to fetch and display accurate weather data from a database of over **250k+** city data.

Technical Skills

Languages C++, C, OOPs, JavaScript, SQL

Developer Tools: HTML, CSS, Tailwind CSS, React Js, Redux Toolkit, Zustand, MongoDB, Node Js, Express Js

Tools: Git/GitHub, Vercel, VS Code, Firebase, Appwrite, Postman

Achievements/Certificates

- Solved more than 1500+ DSA Problems on different platforms
- Solved **950+** Problems on Leetcode, and Best Rating is **1790+**
- Global Rank **1472** in Leetcode Biweekly Contest 131
- 2 Star at Codechef with Best rating **1498** and Secured Global Rank **632** in Jan Long Contest
- Certificate of Full stack web development in MERN
